3. FALL WORKSHOPS

Preparations and promotions of the workshops were discussed. Emailing specific city staff the schedule to promote within their programming was one of the ideas. A suggestion was made to post the schedule in the Coon Rapids Heralds or Anoka Shopper newspaper, staff will check on the approval process and if SCORE funding or other funding is available to cover this. Dates and times have been verified, the room and equipment is ready to go. The final workshop on sustainability will include project updates, explanation of the process of how projects work within the city planning system and the time process. A round table discussion will be held to gather ideas and suggestions for the City of Coon Rapids.

4. SUSTAINABILITY REPORT

Using the various reports the Commission will collect information to produce a baseline for the City. The goal is to show progress and address areas that need improvement. Reports will be gathered from city staff and sent out to the commission for review.

5. YEAR END REVIEW

A look at what has been accomplished though out the year, and prioritizing the remaining projects. Some of the projects discussed were the Welcome packets available to new residents, a business award and recognition for businesses who have gone above and beyond the basics in sustainability, Sustainability Report update and waste free Graduation parties and events.

6. OTHER BUSINESS

The commission would like to look at providing bumper stickers or window clings to promote recycling or sustainability. Staff will research this and report.

A motion was made by Ed Dedman and seconded by Marcia Baudino for the Sustainability Commission to sponsor a "Fix it Clinic" here at Coon Rapids City Hall. Currently the City of Andover is hosting these events and they are looking for host sponsorship sites. A date will be selected by staff.
